

A free press is guaranteed us in the Bill of Rights. If too many stations, channels, newspapers, etc., are allowed to be placed under one ownership, particularly one with an agenda, the freedom of the press is effectively negated, as only one-sided views would be available in an area. We need to keep at least the present limits of ownership in each area, if not return to the older, stronger standards to insure that we have differing viewpoints available to us. Please do not allow the deregulation, with its negation of our rights to a free press, to go forward.
